

We found **GOLD** in our **DATABASE!**

“With DMG’s help, we found new customers in our old database.

When we realized we were sitting on a lot of out of date prospects that we acquired from former sales reps and attendance at networking events and trade shows, we turned to Data Marketing Group for help.

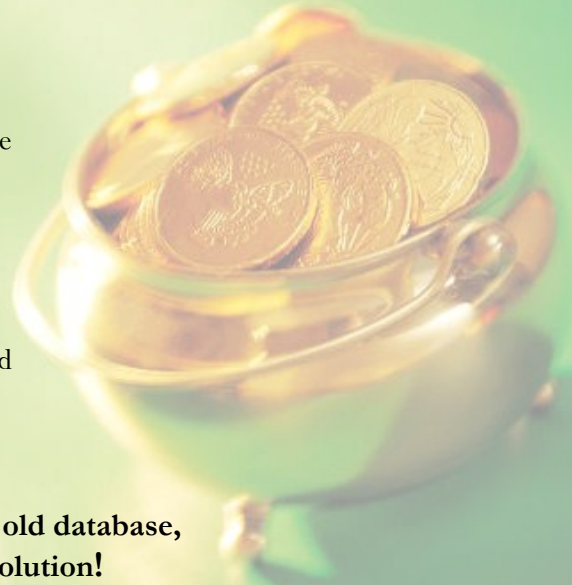

We knew to look inward - to ‘mine’ our old database - to find new customers and thus eliminate our need to increase our advertising budget.

With Data Marketing Group’s expertise, we cleaned and segmented our old list and got higher sales conversion rates in the process.”

Helen —Starz Promoz

**When you need new sales from your old database,
Data Marketing Group is the solution!**
